

## What Do Customers Think Of Our Air Purification Systems

### What do customers think of our air purification systems?

Testimonial letters from satisfied EcoQuest customers.

#### Cecil Deadman - Mesquite, TX

I tested it [the Fresh Air Buddy]... in the building where I work and found I could breath without the reactions of the past. I can't begin to tell you how much joy it has brought to my work situation. I wear my Buddy everywhere... it is a perfect opportunity to introduce the technology to other who have similar problems. God bless EcoQuest for making life bearable once again!

#### Regina Rumprik - Browns Mills, NJ

My family and I tested the Fresh Air purifier for about a week. We have six animals: 2 dogs and 4 cats (with 4 litter pans). One of the first things I noticed after about 24 hours of continuous use, was the smell of the litter pans, or rather, the lack of smell from the litter pans... I'd recommend this machine to any household. If it can pass the test of a family with 6 pets, it can pass anything.

#### Ilia & Allen Spaunhurst - Yorba Linda, CA

This wonderful box... cleans the air in our home like we were staying in a resort up in the mountains. I am now an EcoQuest distributor and am spreading the word wherever I go. Thank you for creating such a great product.

#### John Thomas - Shady Hollow Country Club

I was skeptical at first, however the results have been nothing short of amazing. From musty cigar odor to a consistent fresh environment. We will in the future be looking at the installation of additional units in appropriate areas of the club. Thank you for all your assistance.

**Fresh Air  
by EcoQuest**  
Purifies up to 3000  
square feet.  
Customizable using  
either the included  
remote or the controls  
on the front.

**Fresh Air  
Spectrum UVX**  
Reduces smoke,  
odors, and a broad  
spectrum of air  
contaminants with no  
noise, maintenance, or  
filters.

#### John Mooney - The Positive Image

Within a day, employees were commenting that the usual odors associate with the [photo] lab were no longer present. The second purifier was installed in the office [we had been having a problem with musty odors there] on a Friday afternoon... When we came in Monday, all of the odors were gone. Thanks for introducing me to such a fine product. I would never have believed it if I hadn't seen (smelled) it for myself.

#### Sheree Martin - Colonial Woodworks

He left the purifiers in our [woodworking] shop for 2 weeks without charge to make sure they would work for us. To our astonishment, within less than 24 hours, we could no longer see dust floating in the air. The odors were significantly less and we could smell the difference... six of the eight employees purchased [a unit] for their home. The air purifiers really work and have changed the quality of our life... Thank you.

#### Anne M. Whiting - Anne Whiting Real Estate

The fact that I am pleased is an understatement. I have had several challenging circumstances by which to test the system. This included severe mold/mildew odors, problematic pet odors, and even heavy cigarette smoke damage. Although initially skeptical, I happily report that in each of these cases, the air purification system proved to be a winner! Thank you very much for your presentation, suggestions, and service.

#### Ray Turner - Kier's Thriftway

The smell in my back room was nasty, with rotten fruit and flies everywhere... in just a short time there was no smell. The smell in the back room is now clean and fresh. My produce manager loves it. We put it in our cooler for two weeks and the produce lasted much longer. We have a lot less waste now... it was a great investment! I'll be sure to tell my friends and family.

#### Fresh Air Buddy

Create a personal  
"exclusion zone" for  
allergens, smoke, dust,  
viruses, and bacteria in  
your breathing area.

#### Fresh Air DuctwoRx

Deliver safe oxidizers  
and super-oxide ions  
throughout your home  
using your existing  
HVAC system.
